

# How to **VOTE CLIMATE**

The 2020 election will be like none other in shaping our response to the concurrent crises in our country, including climate change. It is going to take all of us to do our part to get out the vote on climate! This simple guide will help you ensure your vote is counted and is a resource for voting in U.S. federal, state, and local elections. Please use and share it with others.

## It's as Easy as 1, 2, 3...4!

### 1. **REGISTER (or, verify).**

Ensure you are registered in the jurisdiction where you are planning to vote. Many states have recently purged voter rolls.

### 2. **Make a PLAN.**

People who make a plan to vote are more likely to do so. The checklist below should help.

### 3. **VOTE.** Vote early, if possible.

### 4. **TRIPLE your impact.**

Ask 3 others to vote, and help them get to the polls if needed. Encourage others on social media.
